# REACH Conference 2023

## Bratislava 22.-23.5.2023

### Introduction

Ekotox Centers together with partners and representatives of Cefic, Eurometaux, EPMF and other colleagues and partners from European industry, authorities and NGOs are delighted to announce the REACH Conference Bratislava 2023 which will focus on the new REACH requirements and its potential impact on companies and countries thereby covering the following topics:

**SESSION 1** Expected new requirements affecting registration and safe use demonstration for registrants & downstream users

**SESSION 2** REACH 2.0 's main focus on improving / updating Risk Management

**SESSION 3** Chemicals Management beyond REACH 2.0

**SESSION 4** Chemicals – Knowledge base, Rights to know, Enforcement

### Background

REACH Conference is organized for the 13<sup>th</sup> time combining lecturers and participants from different sectors of industry, authorities, academia, NGOs and other stakeholders. There was a break between 2019—2023 caused by Covid-19 restrictions which are now gone.

We are happy to be able to put together top speakers from the field again and to facilitate discussions on the topics which will have an impact on our lives for at least coming decade.

The European Commission published a chemicals strategy for sustainability on 14 October 2020. CLP and REACH regulations are to be upgraded — REACH 2.0 is on the way. No matter if happens this year or two years later. REACH 2.0 is coming.

REACH Conference 2023 is a hybrid one. Participation is possible in-person or online.

**So now it is time to meet again!**
